CONTACT US

WHO ARE WE?

The Nahda Association for Development is an organization registered with the Ministry of Social Solidarity under No. 2182 of 2012. It comprises a group of individuals dedicated to development work in Dakahlia Governorate who strive to achieve a renaissance benefiting both the individual and society as a whole. To realize this vision, they seek to provide innovative development solutions for the challenges faced by individual solutions that ultimately yield positive impacts for the entire community.

Activities

- 1- Establishing children's clubs
- 2- Setting up vocational training centers for skilled trades
- 3- Orphans Care
- 4- Providing financial and in-kind assistance
- 5- Offering programs and training courses on preparing feasibility studies
- 6- Offering programs and training courses on modern management methods
- 7- Implementing vocational, craft, and retraining projects for individuals
- 8- Implementing economic empowerment programs for youth & female households heads
- 9- Conducting activities related to environmental protection & conservation; establishing nurseries
- 10- Establishing centers for intellectual and cultural education
- 11- Implementing social protection programs for social welfare groups
- 12- Facilitating Hajj and Umrah trips for members

OUR MISSION

Contributing to the support and development of society—across its various institutions and segments to ensure it is capable and qualified to advance and keep pace with progress, while upholding the principles of ethics, honor, and integrity.

OUR VISION

Community Development... Organizational Excellence

STRATEGIC OBJECTIVES

- 1- Raising local community awareness regarding fundamental individual rights and calling upon stakeholders to respect and uphold these rights.
- 2- Combating discrimination against women and all forms of violence directed at them.
- 3- Protecting children and ensuring their rights are met through collaboration with educational and social institutions.
- 4- Increasing the income of impoverished individuals through micro-loans and equipping them with the necessary skills to expand their employment opportunities.
- 5- Improving environmental conditions and working to preserve environmental health and safety.
- 6- Developing innovative community leaders capable of serving their communities and advocating for their rights.

Dual Education and Training Services

In partnership with the Federation of Egyptian Industries, the Al-Nahda Development Association offers a dual education and training system that combines learning with practical experience.

This modern educational system integrates theoretical classroom study with hands-on training in real-world work environments, preparing a skilled technical workforce for the labor market.

- 1- It helps build a professional character committed to workplace standards and discipline.
- 2- Students gain exposure to the latest technologies and practices within factories and companies.
- 3- It combines theoretical study with practical training in a real work environment.
- 4- Students acquire professional skills and experience highly valued by the labor market.
- 5- It enhances employment prospects immediately upon graduation.
